SPECIAL ISSUE

PRECAMBRIAN GRANITOIDS
Petrogenesis, Geochemistry and Metallogeny

Papers presented at the Symposium on Precambrian Granitoids — Petrogenesis, Geochemistry and Metallogeny, held August 14–17, 1989 in Helsinky, Finland

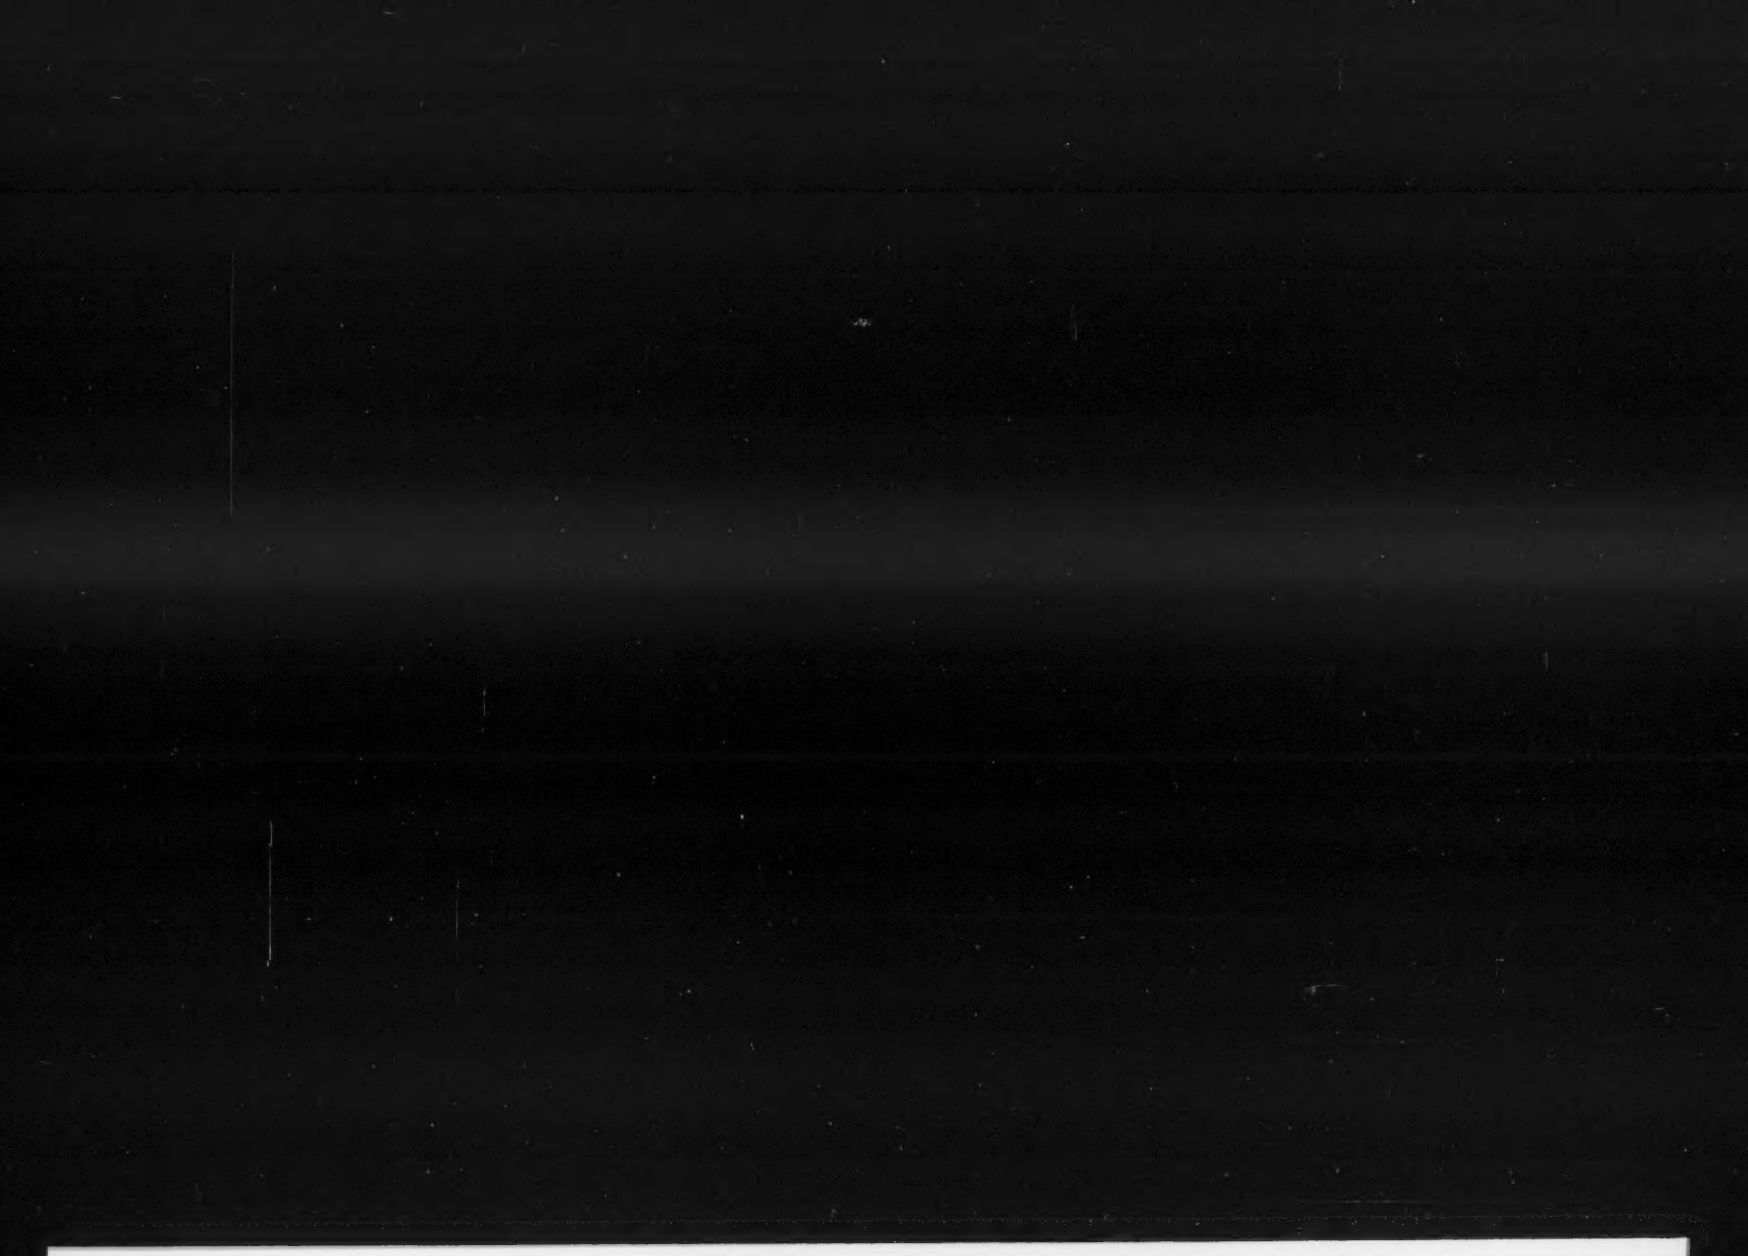
Edited by

I. Haapala[a] and K.C. Condie[b]

[a]*Department of Geology, Division of Geology and Mineralogy, University of Helsinki, Box 115 SF 00171, Finland*
[b]*Department of Geoscience, New Mexico Institute of Mining and Technology, Socorro, NM 87801, USA*

CONTENTS

Preface vii
Partial melting of amphibolite/eclogite and the origin of Archean trondhjemites and tonalites
R.P. Rapp, E.B. Watson (Troy, NY, USA) and C.F. Miller (Nashville, TN, USA) 1
The Alneau Batholite: Archean diapirisim preceded by coalescence of granitoid magma at depth
L.D. Ayres, N.M. Halden (Winnipeg, Man., Canada) and D.V. Ziehlke (Snow Lake, Man., Canada) 27
An overview of the nature, distribution and inferred tectonic setting of granitoids in the late-Archean Norseman–Wiluna Belt
K.F. Cassidy, M.E. Barley, D.I. Groves, C.S. Perring (Nedlands, W.A., Australia) and J.A. Hallberg (Neerabup, W.A., Australia) 51
The "porphyry-gold" association in the Norseman–Wiluna Belt of Western Australia: implications for models of Archean gold metallogeny
C.S. Perring (Wembley, W.A., Australia), D.I. Groves (Nedlands, W.A., Australia), J.N. Shellabear (Perth, W.A., Australia) and J.A. Hallberg (Neerabup, W.A., Australia) 85
Generation of trondhjemite from partial melting of dacite under granulite facies conditions: an example from the New Jersey Highlands, USA
J.H. Puffer (Newark, NJ, USA) and R.A. Volkert (Trenton, NJ, USA) 115
Granitoid episodes and mafic–felsic magma interaction in the Svecofennian of the Fennoscandian Shield, with main emphasis on the ~1.8 Ga plutonics
U.B. Andersson (Uppsala, Sweden) 127
Structural features of some younger granitoids in central Sweden and implications for the tectonic subdivision of granitoids
A. Wikström (Uppsala, Sweden) 151
Precambrian granulites and anorogenic granites: are they related?
K.C. Kondie (Socorro, NM, USA) 161
Granitoids of rapakivigranite–anorthosite and related associations
R.F. Emslie (Ottawa, Ont., Canada) 173
Makhavinekh Lake Pluton, Labrador, Canada: geological setting, subdivisions, mode of emplacement, and a comparison with Finnish rapakivi granites
B. Ryan (St. John's, NF, USA) 193
New U–Pb ages from the Wiborg rapakivi area: constraints on the temporal evolution of the rapakivi granite–anorthosite–diabase dyke association of southeastern Finland
M. Vaasjoki (Espoo, Finland), T. Rämö (Helsinki, Finland) and M. Sakko (Espoo, Finland) 227
The Butler Hill Caldera: a mid-Proterozoic ignumbrite–granite complex
G.R. Lowell (Cape Girardeau, MO, USA) 245
Lead isotopic evidence for the origin of 1.8–1.4 Ga ores and granitoids in the southeastern part of the Fennoscandian Shield
K. Sundblad (Stockholm, Sweden) 265
The Itiúba alkaline syenite massif, Bahia State (Brazil): mineralogical geochemical and petrological constraints — relation to the genesis of rapakivi magmatism
H. Conceição, P. Sabate (Salvador, Brazil) and B. Bonin (Orsay, France) 283
Grenvillian magmatism in the eastern Grenville Province, Canada
C.F. Gower (St. John's, NF, USA), L.M. Heaman (Toronto Ont., Canada), W.D. Loveridge (Ottawa, Ont., Canada), U. Schärer (Montreal, Canada) and R.D. Tucker (Toronto, Ont., Canada) 315

U–Pb dating of the post kinematic Sveconorwegian (Grenvillian) Bohus granite, SW Sweden: evidence of restitic zircon
T. Eliasson (Göteborg, Sweden) and H. Schöberg (Stockholm, Sweden) 337
Late Proterozoic granitoid magmatism in the state of São Paulo, southeastern Brazil
V. de Assis Janasi and H.H.G.J. Ulbrich (São Paulo, Brazil) 351
Late Proterozoic fractionated granitoids of the mineralized Telfer area, Paterson Province, Western Australia
N.M. Goellnicht, D.I. Groves and N.J. McNaughton (Nedlands, W.A. Australia) 375
The Cadomian granites of Mancellia, northeast Armorican Massif of France: relationship to the St. Malo migmatite belt, petrogenesis and tectonic setting
M. Brown (Kingston-upon-Thames, UK) and R.S. D'Lemos (Oxford, UK) 393
Fertile granites of Precambrian rare-element pegmatite fields: is geochemistry controlled by tectonic setting or source lithologies?
P. Černý (Winnipeg, Man., Canada) 429


Precambrian Granitoids Symposium participants on the stairs of the Cathedral of Helsinki, Finland.
